Re: FCC ID: SM6-LMXR

To Whom It May Concern:

The following application is submitted on behalf of our client, Mueller Systems, LLC, for evaluation of their model Repeater Plus Module for limited modular certification under FCC Part 15.247.

The Mueller Systems Repeater Plus Module is an ISM band 902 to 928 MHz transceiver module with a maximum output power of +30dBm used in a data collection system connected to a device such as a standard water meter register. The Repeater Plus Module is a composite device operating under two modes utilizing frequency hopping and wideband digital modulation respectively.

The Repeater Plus Module was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,
