Indicator Light Color Key:
Flashing blue =Smart Plug is ready to connect (Pair)
Solid blue =Smart Plug is connected (Paired)and outlets are powered.
No Light =Smart Plug is off, and outlets are not powered.

Three Outlets
All outlets operate in unison

TROUBLESHOOTING TIPS

If you are having difficulty connecting:

- Make sure the Wi-Fi network is a 2.4 GHz network. Outdoor Smart Plug will not connect to a 5 GHz network.
- Test your Wi-Fi network with other devices such as your phone to make sure it is operating properly.
- The Wi-Fi connection may not have good coverage during set up.Try moving the Outdoor Smart Plug closer to your Wi-Fi router.
- Your Wi-Fi network password is case sensitive,make sure you are entering correctly.

Devices plugged into your Outdoor Smart Plug must be ON in order to be controlled via the mobile app.
Please also check the App User Guide for more information

Radiation Exposure Statement

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment.This device should be installed and operated with a minimum distance of 20cm between the radiator and your body.

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1)This device may not cause harmful interference, and
- (2)this device must accept any interference received,including interference that may cause undesired operation.

NOTE:This equipment has been tested and found to comply with the limits for a Class B digital device,pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.This equipment generates,uses and can radiate radio frequency energy and,if not installed and used in accordance with the instructions,may cause harmful interference to radio communications.However,there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception,which can be determined by turning the equipment off and on,the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

IC Caution:

Radio Standards Specification RSS-Gen, issue 5
This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:
This device may not cause interference.

This device must accept any interference, including interference that may cause undesired operation of the device.

RF exposure statement:

The equipment complies with IC Radiation exposure limit set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Cet appareil contient des émetteurs / récepteurs exemptés de licence conformes aux RSS (RSS) d'Innovation, Sciences et Développement économique Canada. Le fonctionnement est soumis aux deux conditions suivantes:

Cet appareil ne doit pas causer d'interférences.
Cet appareil doit accepter toutes les interférences, y compris celles susceptibles de provoquer un fonctionnement indésirable de l'appareil.

Déclaration d'exposition RF:

L'équipement est conforme à la limite d'exposition aux radiations de la IC établie pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec une distance minimale de 20cm entre le radiateur et votre corps.

www.feit.com

Getting Started:

- 1 Download the Feit Electric app on your smart device

- 2 Plug in your Outdoor Smart Plug

Plug the Smart Plug into an outdoor rated GFCI receptacle with appropriate outdoor cover.

WARNING: These products may represent a possible shock or fire hazard if improperly installed or attached in any way. Products should be installed in accordance with the owners manual, current electrical codes and/or the current National Electric Code (NEC).

Indicator light must be rapidly blinking to connect. If not already blinking, press and hold the power button for five seconds.

- 3 Turn on Bluetooth and open the Feit Electric app to complete the set up.

Tap **Add Device** or the + sign. The device name(s) will pop up on the Feit app. Tap on **Go to add**, then select the device to add.

You will be prompted to enter your Wi-Fi network name and password.

Multiple devices can be added using Simple pairing. Alternative set up options and help instructions are available in the Feit Electric app.

Be sure to connect to a 2.4 GHz Wi-Fi network that covers your installation location.

- 4 Plug your device into the Outdoor Smart Plug

Ensure your device is switched to the ON position and plug it into the Outdoor Smart Plug.

FINISHING INSTALLATION

Once you're up and running, secure the Outdoor Smart Plug to wall by inserting a screw (not included) through the strain relief tab. Make sure to tightly cap the Outdoor Smart Plugs when not in use.

(Optional) Connect to Google Assistant or Alexa using the in App guide

Tap Pen icon

Choose Alexa or Google
