Power

2   getting stared
   a)   Setting up the stand

   Rotate into the stand attaching from picture frame.

b) Plugging in the power cord.

AC adaptor

c) Press the power button to turn on the frame

d) Connecting to your wireless network

When you turn on the frame, it will scan for any available WiFi networks automatically. Please choose your specified Wi-Fi network,then please input your password into the blank(if you set your wireless as encryption). Enter your password through pressing the virtual Keyboard buttons displayed on frame screen

(Note:
i)   In case of not finding specified SSID, please select Scan Again. In case of scanning failure again and comparatively complicated Wi-Fi network security , please select Manual Setup and Enter to set up your Wi-Fi networks as below. We do not

recommend "Manual setup" if you are not a technology wiz.

Zcool			>
NEKOKO			>

3) setting up content source

A) setting up gmail account

After setting up your gmail account, you are able to send photos to your frame by attachment. The frame will get these photos immediately and starting slideshow.

B) getting pictures from RSSFEED

RSSFEED module need keep to media RSS 2.0 protocol, and it just contain photos .RSSFEED sent by gmail as follow format:

subject: command

[add rss]#*url_link_address*#

[remove rss]#*url_link_address*#

Please write "command" this word into your email subject. At this rate, our system will parse your RSS comand. [add rss] is adding new rss link to your frame, Oppositely, [remove rss] is removing old rss from your frame.

Example: [add rss]#* feed://api.flickr.com/services/feeds/groups_pool.gne?id=72526026@N00&format=rss_2 00*#
