# Blackboard DR4200 Contactless Door Reader

The Blackboard DR4200 Contactless Door Reader provides the ultimate in access control security, utilizing the secure Sony FeliCa™ contactless technology.

## Why contactless?

The payment industry is rapidly migrating to contactless card technology for its increased benefits over magnetic stripe cards. Because of these benefits, the contactless smart card market is expected to grow 33% over the next three years.

Contactless card technology offers multiple advantages over magnetic stripe:

- Encrypted keys provide a higher level of data security
- Cards are not as easily duplicated as magnetic stripe cards
- Use of contactless cards virtually eliminates reader wear and tear, as the card does not need to physically touch the reader
