

## Correspondence Summary

May 9, 2007

SUBJECT: AFFILIATED COMPUTER SERVICES SOLUTIONS FRANCE SAS -  
FCC ID: U36-BBR415

---

TCB question:

1. *Schematic - page 7/24: It references a Bluetooth connector. Please confirm that this product does not contain a Bluetooth device.*
2. *Part 15.207 (c): Please provide more information about the exemption from compliance with this section. Stating that the device is "DC supplied" is not sufficient. Battery operated devices are clearly exempted, but not necessarily DC powered devices, which can be connected indirectly to the AC power lines via another devices, etc. Please explain the applications/environment for this device so as to justify exemption from compliance with this section.*

Applicant's Answer:

1. Schematic: The BBR 415 does not contain a Bluetooth device, it's an option not used.
2. Part 15.207 (c): The BBR 415 is suitable for use in a bus and those connected to the battery of the vehicle.
