Overview

Summit Semiconductor LLC is seeking modular approval for their model 444-2213. This device is a wireless audio client device operating under FCC part 15.247 and 15.407. The model 444-2213 wireless audio client device is a turnkey solution that enables customers to start volume production of high performance Digital Wireless Audio Speakers. The model 444-2213 radio module is designed to be integrated into an audio speaker providing high fidelity audio. It is an 802.11a compliant radio operating in the UNII band as a client device.

Confidentiality requested for allowed files. Request is properly addressed and referenced.

A letter listing the applicable modular requirements was submitted.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
