Dear Lucy Tsai,

Thank you you your cooperation and kindness.

Regarding the Assessment NO. AN07T7141, we would like to inform you for your comments as follows,

Q#1: Please add following statement into the user manual to address the RF exposure requirement per Par1.1307 and Part 2.1093.

"This device and its antenna must not be co-located or operating to conjunction with any other antenna or transmitter. "

- - -> Please refer to attached user manual. Above statement was added in page 4.

Q#2: Page 5 of test report indicated the operating frequency range was from 2430-2460MHz which didn't agree with page 9 of fundamental measurement. The low channel measured was 2421MHz.

Please do the proper revise to consist with the filing.

- - -> Please refer to attached test report. Page 5 of test report was revised to 2421-2460MHz.

If you have any question or need more information, please feel free to contact us.

Have a nice day!

Best Regards,

S. C
