Dear Sir,

Re: Relationship between Flextronics and t+ Medical Ltd

This letter is a statement to explain the business relationships regarding the Mk2 Cradle (U2B) used to provide a Bluetooth link between a One Touch Ultra 2 meter and a mobile phone.

t+ Medical Ltd is the owner of the product and has sub-contracted design and manufacture of this device to Flextronics. This device will then be sold and supported by t+ Medical.

Yours faithfully

Greg Billington
Product Development Director
t+ Medical Ltd

Brian Goemans
Flextronics
