To Whom it May Concern:

This letter is to clarify the use of the RGIS RM-1 data collection scanners. The RM-1 data collection scanner is for use only by RGIS employees and is not for sale. For units used in the U.S. and Canada, the RM-1 wireless settings are preset at the factory using channels 1-11, only using the wireless software provided by the wireless chip manufacturer. The user has no access to the system level software. As such, the setting cannot be altered by the user.

Sincerely,

A handwritten signature in black ink, appearing to read "Aamir Chinoy". The signature is fluid and cursive, with the first name "Aamir" and last name "Chinoy" clearly distinguishable.

Aamir Chinoy
Sr. Vice President, Finance & Accounting

cc: Tony Baritz, Chief Information Officer
