Cover letter

Date: May 10, 2021

American Certification Body, Inc.
6731 Whittier Avenue
Suite C110
McLean, VA 22101

To Whom It May Concern:

We certify that we are not subject to denial of federal benefits, that includes FCC benefits, pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. 862. Further, no party, as defined in 47 CFR 1.2002 (b), to the application is subject to denial of federal benefits, that includes FCC benefits.

We also declare that the information provided to the FCC is true and correct to the best of our knowledge (47 CFR 2.911(d)) and we have been informed of the grantee responsibilities (47 CFR 2.909) with regard to certified equipment.

This application is to request a Class 2 permissive change for FCC ID: VGXMS01, originally granted on 14/04/2021

The major change filed under this application is:

- #1 New antenna type, original grantee antenna type is Dipole, JLT type is IFA
- #2 New trace portion design, the module is integrated on a new motherboard.

Another applicant Ruggon with Grantee code 2ABTU has previously done a Change in ID and Permissive change using a similar antenna to our intended use.

New measurements regarding this application have been done with basis of worse case justification on reports of FCC ID 2ABTU-MS01, since JLT have same module from USI and similar type of antenna but JLT have lower gain.

Thank you,

By:

(Signature¹)

Anders Grandin
