Request for Confidentiality

Dear Sir or Madam

Pursuant to 47 CFR 0.457(d) and 47 CFR 0.459, WiseDV respectfully requests that the following exhibits be withheld from public inspection:

1. Installation Manual
2. Technical Description
3. Internal photographs
4. Parts List
5. Schematic, Part List RF Modulator, vendor supplied

The reason is that the installation uses fiber optic communications between its constituent parts, which is a trade secret that is not publicly available. The Installation Manual is a document that will be retained by WiseDV and not released to end users because WiseDV will be doing all of the installations. The Installation Manual will remain confidential and the trade secrets that it contains will be withheld from customers and end users. The public view of internal components is not an issue of public viewing as the system is not for sale to the public and the system will be operated by WiseDV or WiseDV's trained professional subcontractors. The system is set up and disassembled for each event and set up in areas off limits to pedestrians. Non-WiseDV personnel are not allowed to view the interior.

Should you require further information, please contact me at 858 437 0500.

Sincerely yours,

A handwritten signature in black ink that reads 'Atul Anandpura A.M.' with a horizontal line underneath.

Atul Anandpura
President and CEO
