Button Modes & Resets

Feed Mode

The Axis® will spin very slowly for 10 minutes (default setting) and then resume its set mode.

To Enter Feed Mode:

1. Hold the button on the Integrated Controller for **2-5 seconds** until the LED blinks white. The button LED will continue to blink white while in feed mode.

All Off

All connected Axis® pumps will stop.

To Power Off:

1. Hold the button on the Integrated Controller for **6+ seconds** until the LED fades out. The button LED will pulse white while pumps are off.

To Resume:

1. Press the button once.

Soft Reset

A Soft Reset restarts the device but retains the schedule and settings.

To Perform a Soft Reset:

1. Unplug from power.
2. Reapply power.

Safety Statements

DANGER

To avoid possible electrical shock, special care should be taken since water is employed in the use of aquarium equipment.

WARNING

If the plug or receptacle does get wet, DON'T unplug the cord. Disconnect the fuse or circuit breaker that supplies power to the appliance, then unplug and examine for presence of water in the receptacle.

WARNING

DO NOT immerse the driver or power supply in water. If the driver or power supply falls into the water, DON'T reach for it! First unplug it and then retrieve it. If electrical components of the appliance get wet, unplug the appliance immediately. Death or destruction of property may result.

- Do not install or store the appliance where it will be exposed to weather or to temperatures below freezing.
- If an extension cord is necessary, a cord with a proper rating should be used. A cord rated for less amperes or watts than the appliance rating may overheat. Care should be taken to arrange the cord so that it will not be tripped over or pulled.
- DO NOT attempt repairs yourself; return the appliance to the manufacturer for service or discard.
- ONLY the pump component of the product is waterproof.
- Close supervision is necessary when an appliance is used by or near children. Keep out of reach of young children.
- To avoid injury, do not contact moving or hot parts such as heaters, reflectors, lamp bulbs, and the like.
- Always unplug appliance from outlet before putting on or taking off parts, and before cleaning.
- DO NOT stick fingers or anything else into the propeller.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna must not be located or operating in conjunction with any other antenna or transmitter.

Industry Canada Compliance Statement

REGULATORY STATEMENTS

FCC Compliance Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
