To whom it may concern:

We, JJPlus Corporation declare that the product, FCC ID is W23-WMXWAVE2AS, have been sold around 15 thousands units in US region.

Considering the test results in the report are only with small margin between limitation and there is a tolerance for output power of Chipset.

In case of appearing tolerance of chipset which may cause failure of market surveillance.

All the setting value of output power has been reduced 1.5 dB during manufacturing.

Factory reduce the default value of power table in product firmware.

Before packing, QC team would confirm that if the output power value setting is lower 1.5 dB than in report with RF tools. Therefore, all products which have been sold to US region meet the FCC requirements.

Sincerely,

Signature
