RE: Justification for label location regarding application for certification of

FCC ID: W72-1DX IC Number: 8253A-1DX

To Whom It May Concern:

This letter is to justify the choice of label location for the device bearing the above FCC ID and IC Number. The location was chosen to be in the user manual and the FCC ID shall also be placed on the device packaging. The device is too small such that it would be impracticable to label with a font size that would be easy to read.

Please contact the undersigned if you have any questions or need any further information.
