3/30/2010

Dear Examiner:

I am writing to avoid the possibility of an inadvertent disclosure of proprietary information.

The accompanying Form 731 is being filed with the commission on our behalf by Elliott Laboratories, Inc., a consulting and testing laboratory. Included as exhibits with the enclosed application is a description of the operation of the device that is provided to professional installers of the system.

It is our intention to provide the commission with a full disclosure of our product so that its merits can be evaluated. Indeed, we are pleased to provide any further information that the commission might wish to see. In view of the fact that the operational description contains information that should not be available to the product end-user and only available to approved installers of our systems, we ask that this operational description be withheld from public inspection as provided under FCC section 0.459.

Thank you for your attention. Please let the undersigned know if the Commission disagrees with our position or requires further justification.

Sincerely,

A handwritten signature in dark ink, appearing to read "Susan Raji". The signature is fluid and cursive, with the first name "Susan" and last name "Raji" clearly distinguishable.

Susan Raji
General Manager
