**ATTESTATION FOR PROFESSIONAL INSTALLATION**

The FRC Internet Products wireless access point, model AB-CAU-500-GGGA is a professionally installed unit. This is accomplished through use of the following processes:

- Purchasing Methods

The AB-CAU-500-GGGA is not available by retail or mail order sales methods, nor is it available to the general public. It is sold only for commercial or industrial use by professional installers.

The unit is available only through the following sales channels:  
Sales to properly trained system integrators.

- Installation

The AB-CAU-500-GGGA requires professional installation by trained personnel.

- Training

FRC Internet Products conducts a training program for customers and system integrators.

The detail system installation manual is only available to qualified personnel.

After training, engineers and technicians installing the AB-CAU-500-GGGA configure the system to operate to the requirements of the regulatory agencies, tower requirements, and local regulations.
