

NEUROPACE

RNS® System Patient Manual

For the RNS® Neurostimulator Model RNS-320

DRAFT

You should have two manuals, both this manual and the NeuroPace® Remote Monitor manual. Read both manuals before use. This manual is not meant to take the place of advice from your doctor. For a complete discussion of indications for use, contraindications, warnings, cautions, and potential side effects talk with your doctor.

FCC Information

The following is communications regulation information on the neurostimulator model RNS-320 and wand model W-02.

- Neurostimulator FCC ID: WBWRF320
- Wand FCC ID: WBW902

These components comply with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) These devices may not cause harmful interference, and (2) these devices must accept any interference received, including interference that may cause undesired operation.

Important:

Changes or modifications to these components not expressly approved by NeuroPace, Inc. could void the FCC Certification, and negate your authority to operate them.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
