RE: Replace the Label Drawing
Applicant: NIDEC SANKYO CORPORATION
FCC ID: WJ6-ICM0M001A-M

To Whom It May Concern:

Our product, Contactless IC card reader (FCC ID: WJ6-ICM0M001A-M) was granted on January 15, 2010.

We submitted two Label Drawings, one is for module and another is for end product. However, we would like to replace submitted Label Drawing of end product because we want to remove the end product model name. There are plural end products, so we do not want to show particular model name on the Label Drawing.

Sincerely,

Junro Takeuchi
Engineer
