APPLICANT: Alpha 360 Co., Ltd.
            FCC ID: WKV200801

The theory of z-Stick:

1. CPU: responsible for communication with outside interface, responses the message through UART. Main frequency is 48MHz.
2. z-Wave module: responsible for communication with other z-Wave moulds, and transfer the sound. Main frequency is 32MHz
3. Power circuit: To provide steady power to around circuit
4. LED display: Display current state of z-Stick.
5. the Antenna is on the PCB layout
