

Declaration of similarity

Models:

WIN5137-AC

WIN5137-DC

WIN5237

WIN5137-AC-IS

WIN5237-IS

WIN5137-V

WIN5137-V-GPS

All models are functionally identical; the differences are:

- Presence/absence of PSU board – some models have PSU board components integrated into digital board
- Presence/absence of GPS unit
- Integral/external antenna
- Input voltage range: 9-36VDC or 48VDC

Model	GPS	PSU Board	Antenna	Input Voltage
WIN5137-AC	No	Yes	External	48V
WIN5137-DC	No	Yes	External	9-36V
WIN5237	No	Yes	Integral	48V
WIN5137-AC-IS	No	No	External	48V
WIN5237-IS	No	No	Integral	48V
WIN5137-V	No	Yes	External	9-36V
WIN5137-V-GPS	Yes	Yes	External	9-36V

All models have same internal voltages

All models have the same digital circuitry

All models have the same RF board - RF frequency and RF output power remains the same
