Those documents contain detailed system and equipment description and related information about the product which Megabyte Limited considers to be confidential proprietary, a custom design and, otherwise, not releasable to the general public. Since this design is a basis form which future technological products will evolve, Megabyte Limited considers this information would be of benefit to its competitors, and that the disclosure of the information in these documents would give competitors an unfair advantage in the market.

Thank you for your attention to this matter.

Yours Sincerety,
