

# Statement

We **Quectel Wireless Solutions Co., Ltd** declare the following models.

**Product Name:** LTE Cat M1 Module

**Model Number:** BG96-NA

**Hardware Version:** R1.0

**FCC ID :** XMR201705BG96NA,

**issued date :** 06/06/2017

Module	Category	Supported Band
BG96-NA	CAT M1	B2/B4/B12/B13

The HW design of BG96-NA is exactly the same with before, it just increases B2/B12. Because B2 and B12 were disabled through software before **and now enable band 2 / band 12 by software**. The hardware design and software feature are exactly the same.

The change will not impact RF performance for original frequency bands.

Your assistance on this matter is highly appreciated.

**Sincerely,**

**Name:** Johnny Xiang

**Title:** Certification Section
