

Statement

We, Quectel Wireless Solutions Co., Ltd., declare the following models as series application.

Name: LTE CAT1 bis Module

Model number: EG915Q-NA, EG915Q-NA MINI PCIe

Hardware Version: R1.0

EG915Q-NA and EG915Q-NA MINI PCIe are all LTE modules. They support the same frequency bands, use the same chipset and share the same software and hardware design. The main difference is on the carrier board. EG915Q-NA MINI PCIe makes up of EG915Q-NA module and PCIe transferred board. The transferred board switches EG915Q-NA module to follow PCI Express Mini Card 1.2 standard connector protocol. GNSS related components are added to the EG915Q-NA module.

We hereby declare that there are no GNSS related components within EG915Q-NA, and EG915Q-NA MINI PCIe has added GNSS related components. In addition to the above differences, the interfaces of the two module connectors may vary due to different market demands

Your assistance on this matter is highly appreciated.

Sincerely,

Name: Jean Hu
