

Permissive Change Request Letter

Date: April 30, 2025

This is to request a Class II permissive change for FCC ID: **XMR2024FGM840R**, originally granted on **01/22/2025**.

The major changes filed under this application are:

Change #1: The certified module (FCC ID: XMR2024FGM840R; model: FGM840R) is integrated into a new platform (dock, Brand: Lenovo, Model: LDC-U4).

Change #2: Add an antenna and the antenna type(PIFA) is different from the original grant.

Change #3: Disable the BLE function by firmware on the platform.

Except for the above differences, the hardware design is identical with the original grant. Should you have any enquires or comments, please have my best attention.

Sincerely,

Jean Hu / Certification Manager
Quectel Wireless Solutions Company Limited
