Subject: Request for Confidentiality

FCC ID: **XV2SC414002**

To Whom It May Concern:

Pursuant to the provisions of Sections 0.457 and 0.459 of the Commission's rules (47 CFR §§ 0.457, 0.459), we request the Commission to treat the following attachments as confidential documents and withhold them from public disclosure indefinitely:

Schematic Diagram (file: CD101592_01_CE910_2013-07-17.pdf)

Block Diagram (file: SC414C7714 Block Diagram.pdf)

Operational Description (file: TN00071_02 SC414 mk2 Operational Description.pdf)

Parts List (file: SC414C7714_BOM_ISM.pdf)

Tune-up Procedure

Internal Photographs

The above mentioned documents contain detailed system and equipment descriptions and are considered as proprietary information in operation of the equipment. The public disclosure of above documents might be harmful to our company and would give competitors an unfair advantage in the market.

Our justification for maintaining the confidentiality of internal photographs is:

- The equipment is fully encapsulated. The encapsulant is opaque and totally obscures observation of details of the equipment interior. Attempted removal of the encapsulant would destroy the product.

Additional to the above mentioned documents, pursuant to Public Notice DA 04-1705 of the Commission's policy, in order to comply with the marketing regulations in 47 CFR §2.803 and the importation rules in 47 CFR §2.1204, while ensuring that business sensitive information remains confidential until the actual marketing of newly authorized devices. We are requesting the commission to grant short-term confidentiality requests on the following attachments until 31st December, 2013

External Photos

Test Setup Photos

User Manual (file: ML000043_03.pdf)

It is our understanding that measurement test reports, FCC ID label format and correspondence during the certification review process cannot be granted as confidential documents and this information will be available for public review once the grant of equipment authorization is issued.
