Declaration

Date: 2013-9-2

To Whom It May Concerns,

We, Galaxy Microsystems Ltd., hereby ensure that our product as below:

(Product name: Galapad 7, FCC ID: Y3GGALAPAD7G2)

Our product just supports WCDMA Band I and VIII, GSM900, DCS1800, does not support WCDMA band II and V, GSM850, PCS1900, for peripheral circuits of the product's hardware in 2G and 3G part, the duplexers, filters and matching circuits have no patches, and the components without patches have been marked with "NotAS" on Schematic, it is impossible to support these bands. In addition, these bands will be shielded in software configuration,. WCDMA Band I and VIII, GSM900, DCS1800 can not be used in the USA. So the 2G and 3G parts need not apply for FCC certification.

sincerely,
