BLUETOOTH KEYBOARD CASE FOR IPHONE USER' S MANUAL

Step I Place Your Iphone into the case

Step II Pair (Connect) Your Iphone with the Keyboard

Note: This step is only needed when you first use this keyboard case

Turn on your Iphone and tap “setting”

Tap “General”

And find the “Bluetooth” option

Slide the Bluetooth button to “On” and your Iphone will start to search
Bluetooth devices

You should turn the switch in the keyboard to “on” position

And active the Bluetooth button with a little stick

Then the Bluetooth signal light on the left top of the keyboard will be on

Now, your iPhone will find this Bluetooth keyboard

Then you should tap “Bluetooth Keyboard” option, then a blue window with a password will come out

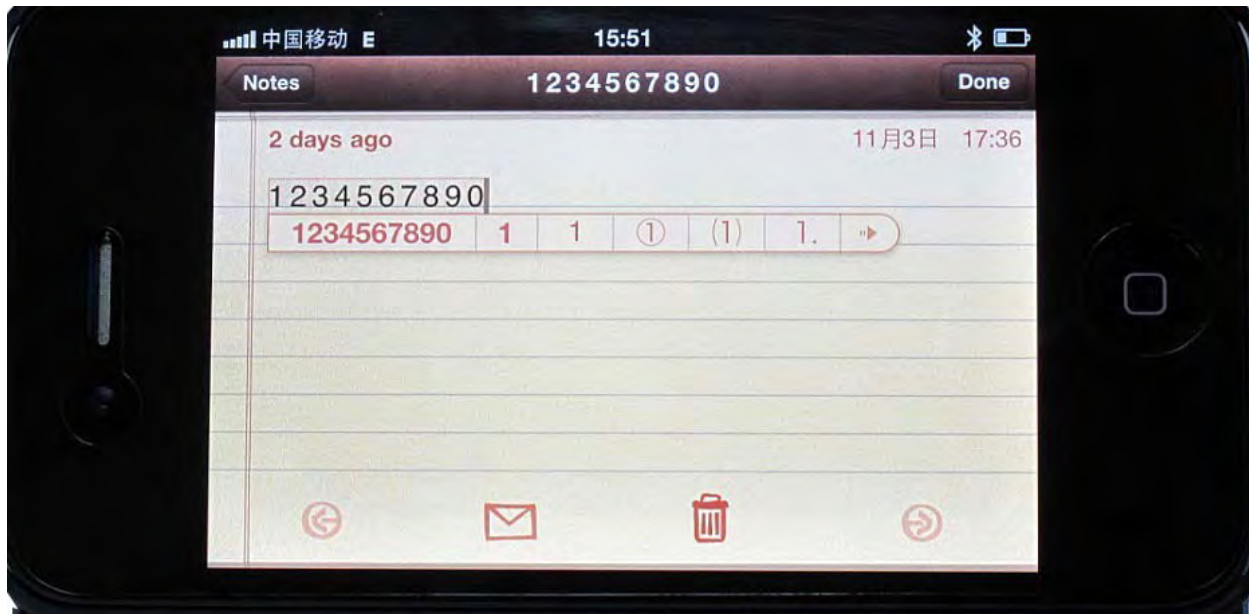

Enter the password on the Bluetooth keyboard then press the “Enter” key, then your Iphone is successfully paired(connected) with the Bluetooth keyboard

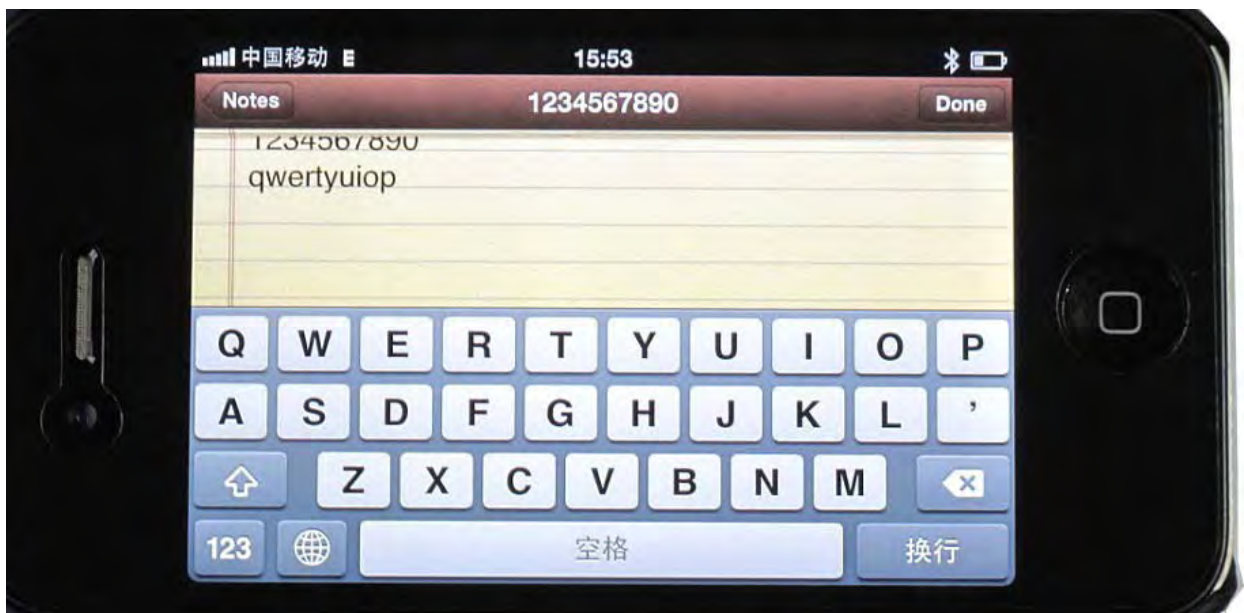

Step III Start to use the keyboard

You can write message, notes and email with this keyboard instead of the touching keyboard on your Iphone

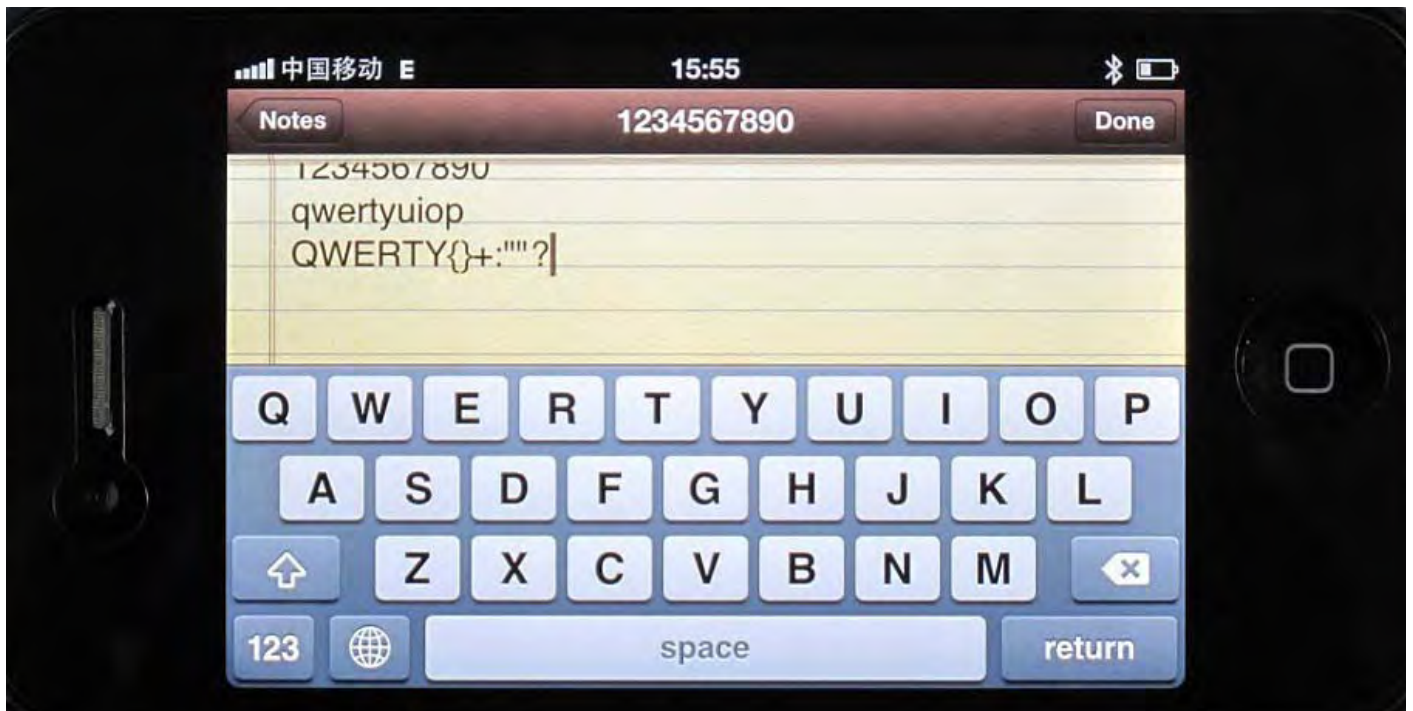

However, you can press “fn” + “the key with keyboard symbol” at the same time to get the touching keyboard

back.

- Press the “Shift” key at the same if you want to type the white symbols on the left top of some keys
- Press the “fn” key at the same time if you want to type the blue symbols on the left top of some other keys

Technical Specification Of The Product:

FCC Statement:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipments.

FCC Part 15.105(b)

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
