Re: FCC ID: Z4D173503

To Whom It May Concern:

The following application is submitted on behalf of our client, Sunbeam Products, Inc. d/b/a Jarden Consumer Solutions, for evaluation of their model 173503 for certification under FCC Parts 15.247 as a single limited module.

The FCC ID: Z4D173503 is a 2.4 GHz IEEE 802.11b/g/n radio module consisting of a single printed circuit board which is designed to be integrated into appliances. The transceiver provides wireless functionality to appliances using Belkin's WASP (WeMo Appliance Software Protocol).

The FCC ID: Z4D173503 does not provide a shield and therefore was evaluated for radiated and power line conducted emissions while integrated inside of a representative host.

The FCC ID: Z4D173503 was tested in full to the requirements of the aforementioned rules in the specific host configuration documented in this filing and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
