

Part 15b: CE

Part 15b: RE

A photograph showing the interior of an anechoic chamber. The walls, floor, and ceiling are covered with numerous dark, pyramidal-shaped electromagnetic absorbers designed to eliminate reflections. In the center, there is a raised platform with a circular opening, surrounded by yellow and black caution tape. A vertical metal stand with a small red and blue device is positioned on the platform. The lighting is dim, with a bright light source visible on the left wall.
