19 Troubleshooting

1 Getting started

Remove the device from the box.

Remove packaging from the product.

Place the packaging inside the box and either store or dispose off safely.

2 In the Box

Epad touch unit

Earphones

USB cable

Power supply

Micro SD Card adaptor

Stylus Pen

3 Safety Instruction

- Keep the player clean and never store it next to a heat source or in dirt, humid or wet places. Keep it out of direct sunlight.
- Do not put the player in high temperature places (over 104°F), especially not in a car with the windows closed in summer.
- Press the player's buttons gently. Pressing them or the screen too hard can damage the player.
- Do not drop the appliance. This may result in damage to the product.
- Do not attempt to dismantle or repair this unit yourself, Repairs should be performed by qualified personnel only.
- Use a slightly damp, lint-free cloth to clean this appliance. Do not dismantle the player or use alcohol, thinner or benzene to clean the surface of the player.
- Always disconnect the device from the power supply before cleaning.
- Wipe the touch screen using only a clean cellulose sponge or chamois cloth.

- Do not use chemicals or abrasive cleaning agents.
- DO NOT leave the device on your lap or any part of the body for prolonged periods of time *as the unit may* become warm during use.
- DO NOT use excessive force on the touch screen and do not use implements that may cause damage to the screen.
- DO NOT expose to strong magnetic or electrical fields.
- DO NOT expose to or use near liquids, rain, or excessive moisture.
SAFE TEMPERATURE: This device should only be used in environments with ambient temperatures between -23 °F ~ 104 °F.
- ONLY USE the power supply provided with this device

Transportation Precautions

When travelling with your device always switch off the unit. If **you are** packing your device along with other items always ensure that it is packed away from anything that could cause damage to the unit, sharp edges, liquids etc.

Airplane Precautions

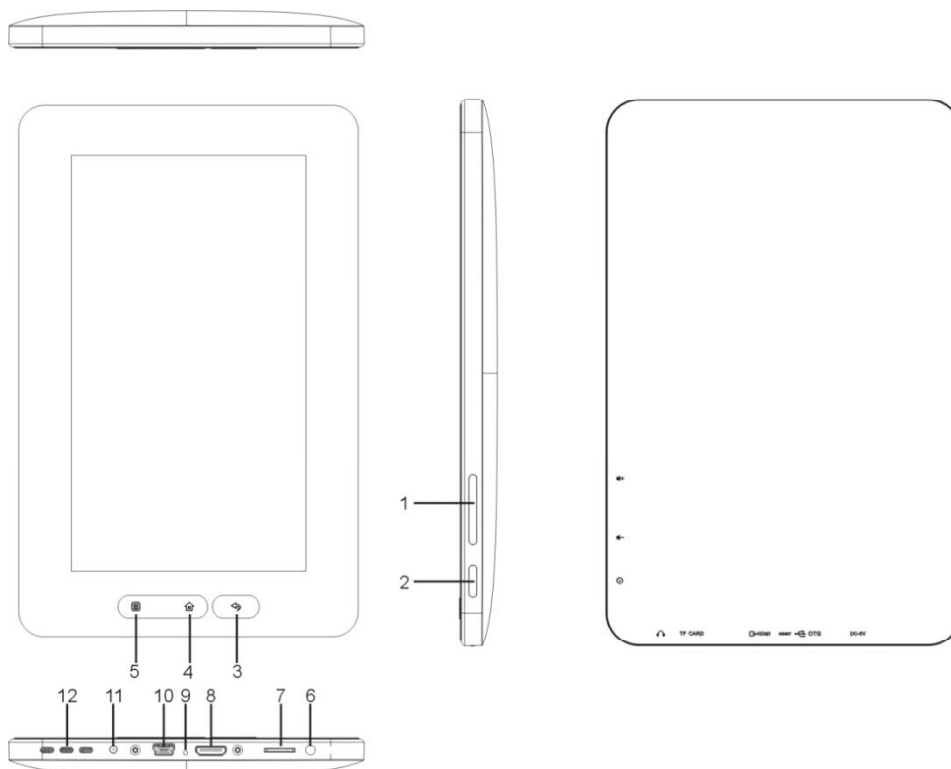

Please refer to specific Airline guidance and instruction before using this device onboard any aircraft

4 Specification

LCD Display	Size	7.0" TFT touch panel
	Resolution	800*480

FCC WARNING

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.

NOTE 3: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.
